Уважаемый Президент Трамп, Президент Путин, Генеральный секретарь Столтенберг, Председатель Лайчак, Высокий представитель Могерини, г-н Энгель, г-н Смит, сенатор Инхоф, сенатор Риш, г-н Слуцкий, г-н Шаманов, г-н Косачев и г-н Бондарев,

В прошлом году Бюллетень ученых-атомщиков перевел стрелки Часов Судного Дня на 2 минуты до полуночи ссылаясь на «неспособность мировых лидеров справиться с надвигающимися угрозами ядерной войны и изменения климата», и подчеркивая все более высокие риски ядерного обмена в результате аварии, просчета, эскалации конфликта или преднамеренно.

Мы приветствуем процесс установления мира и денуклеаризации в Корее, который начался с тех пор, и мы полностью поддерживаем продолжения дипломатического подхода для обеспечения успеха. И мы приветствуем принятие Организацией Объединенных Наций Договора о запрещении ядерного оружия.

Однако мы крайне обеспокоены ухудшением условий безопасности в Европе и на международном уровне в течение 2018 года в результате подрыва Договора о ликвидации ракет средней и меньшей дальности (ДРСМД); выхода Соединенных Штатов из Совместного комплексного плана действий (Иранское соглашение о нераспространении ядерного оружия); неразрешенных конфликтов между Россией и Западом, в том числе из-за Крыма и Сирии, а также между ядерными вооруженными государствами в других регионах, включая Южную Азию и Южно-Китайское море; дальнейшего развития и модернизации ядерного

оружия и связанных с ним военных систем; и провокационных военных игр и ядерных угрожающих позиций.

1) Договор РСМД

Мы особенно обеспокоены нарушением Договора о ядерных силах средней и меньшей дальности, исторического соглашения, достигнутого в 1987 году между Соединенными Штатами и Советским Союзом, уничтожить все их ядерные и обычные наземные баллистические и крылатые ракеты с дальностью от 500 до 5500 километров, и использовать обширные инспекции на месте для проверки его выполнения.

Мы призываем Соединенные Штаты и Россию воздерживаться от разработки и развертывания систем вооружений, которые могут нарушать Договор и решать вопросы соблюдения путем диалога и более эффективной работы Специальной контрольной комиссии, учрежденной Договором.

Мы призываем Российскую Думу и Конгресс США отказаться от санкционирования или выделения средств на разработку или развертывание систем вооружений, которые могут нарушать Договор, таких как российская ракета 9М729, или которые могут обеспечить аналогичные возможности, что и оружие, запрещенное в соответствии с Договором о РСМД, как крылатая ракета с ядерной головной частью воздушного и морского базирования.

И мы призываем Европейские государства-члены НАТО подтвердить свое противостояние любому развертыванию ядерной ракеты в Европе.

2) Новый договор СНВ

Мы также обеспокоены тем, что нынешние конфликты могут подорвать новый договор СНВ, который продиктован здравым смыслом ограничения и предусматривает проверку количества развернутых стратегических вооружений США и России и средств доставки оружия, срок действия которых истекает в феврале 2021 года. Мы призываем США и Россию продлить Новый договор СНВ до 2026 года и предпринять дополнительные сокращения своих ядерных запасов либо в одностороннем порядке или путем переговоров.

3) Снижение ядерных рисков, включая неприменение ядерного оружия первыми

Чтобы снизить риск применения ядерного оружия в результате аварии, просчета или эскалации, мы призываем Россию, США и НАТО подтвердить, что ядерная война не может быть выиграна и никогда не должна быть начата, и выполнить такую декларацию, приняв политику неприменения ядерного оружия первыми. И мы призываем Россию и США отменить свою политику «запуска по предупреждению» и положить конец их высокой оперативной готовности к применению ядерного оружия.

4) Достижение мира, свободного от ядерного оружия

Мы подчеркиваем универсальное обязательство достичь мира, свободного от ядерного оружия, и мы приветствуем обязательство НАТО и США «создать условия» для достижения этой цели. Мы призываем их выполнить это обязательство через:

- а) расширение диалога и взаимодействия с другими государствами, обладающими ядерным оружием;
- б) разработки плана действий по всеобъемлющему поэтапному отказу от ядерного сдерживания и его замена на общую безопасность;
- в) принятия начальных шагов по сокращению ядерных запасов, отмене ядерного оружия программы модернизации, сокращению бюджетов ядерного оружия и перераспределению этих средств для поддержания устойчивого развития; а также
- г) присоединения к другим ядерным и зависимым от ядерного оружия государствам для ведения переговоров о Конвенции глобального ядерного оружия (по ликвидации всего ядерного оружия), как уже поддержали Китай, Индия, Пакистан, Северная Корея и большинство неядерных стран.

Мы подтверждаем, что разоружение помогает создать безопасность, и мы обязуемся решительно действовать для безъядерного и менее военизированного мира. Мы призываем города, парламенты, правительства и гражданское общество вокруг всего мира присоединиться к нам в этом начинании.
